

ExpressEnroll

Exclusive Technology from Voluntary Insurance Partners!!

WHY HAVE BENEFITS ENROLLMENTS BECOME DIFFICULT?

Have you ever felt like there was high pressure put on your employees at their enrollment? - Did you feel like enrollments were too time consuming? - Did your people feel like they were rushed to make a decision without speaking to their family members? - How many times have

employees forgotten passwords, skipped open enrollment, and delayed the process because enrollment and education systems were too complex and confusing? - Is it tough getting to employees because they are remote and hard to reach?

THOSE DAYS ARE OVER!

OUR PROCESS and PLATFORM SOLVES ALL OF THIS AT NO COST TO YOU!

Now, your team can enroll or waive their voluntary benefits with simplicity by using our ExpressEnroll platform via ANY computer or mobile device.

HOW DOES IT WORK?

Your employees will receive an enrollment/waiver link specifically designed for YOUR company and with only voluntary benefits tailored to your team. All we need is the ability to EDUCATE your team, access to text or email them a link, give guidance, and let your people decide what is best and at the time that is best for them. The average enrollment time with our system takes less than 5 minutes, and we can enroll entire teams at once! We take care of the rest.

ASK YOUR AGENT FOR A DEMONSTRATION LINK.
